

Resusci Anne® CPR-D

Quality CPR and live defibrillation training with real-time feedback and evaluation report

The Resusci Anne CPR-D is an adult CPR training manikin focusing on performance and skill in CPR and defibrillation actions during the scenario. The combination of the Micro-HeartSim® and SkillReporter™ modules allows comprehensive instructor-to-student debriefing and documentation of key events. Additionally, first aid and extrication practice can be incorporated into the learning by adding the optional first aid and rescue limbs.

Micro-HeartSim®
Module

Resusci Anne Full-Body comes standard with non-articulating arms and legs. First Aid/Trauma Modules available, see page 22.

(Defibrillator not included.)

Resusci Anne® Q-CPR/D Training System

Quality CPR training incorporating live defibrillation and Q-CPR® Technology

Q-CPR is an exciting technology developed by Laerdal, the result of collaboration with many leading CPR research centers over recent years. Q-CPR is a clinical measurement and feedback tool that will have a major impact on the quality of CPR that is delivered by professional rescuers in the field, and is only available on the Philips HeartStart® MRx ALS Monitor.

- The Resusci Anne Q-CPR/D training system allows for training with the Q-CPR function on the HeartStart MRx defibrillator
- The system allows for defibrillation, Q-CPR, and airway management training
- The airway head is designed for controlled ventilations through use of the endotracheal tube, laryngeal mask airway, or bag-valve-mask ventilations
- The Q-CPR Training Module provides ECG to the defibrillator and accepts shocks. It also provides ventilation data to the HeartStart MRx
- ECG and shock response are controlled from the Micro-HeartSim module
- With the use of the optional SkillReporter™ printer or the PC SkillReporting System, comprehensive debriefing documentation can be generated

Q-CPR Training Module

For more information on the SkillReporter unit, see page 8. (SkillReporter not included.)

(Defibrillator not included.)

Micro-HeartSim® Module

199-10050 Q-CPR Training Module\$1,156.00
